KAIARA'S SPECIAL GEST: JOÃO MEIRELLES

Amazonia's history great expert and, just like us, deeply passionate about this forest, João Meirelles is the author of 'O Livro de Ouro da Amazônia' (The Amazonia's Golden Book), 'Grandes Expedições da Amazônia' (Amazonia's Great Expeditions), 'Rios do Brasil' (Brazilian Rivers), among 15 other books.

He has been dedicated to the environmental movement for 40 years. João was vice-president of the SOS Mata Atlântica Foundation, president of the Ecotourism Institution of Brazil and, since its foundation, he has served as General Director of the Peabiru Institute. João accepted the invitation to embark on this expedition to introduce us to this thought-provoking story of Fordilândia, and satisfy our curiosity about the golden age of Brazil (or rather, the rubber age).
